

SKIN ANTISEPTIC COMPOSITION DISPENSER  
AND METHODS OF USE

ABSTRACT OF THE DISCLOSURE

5           Skin antiseptic composition dispensers and methods of use are disclosed. The  
skin antiseptic composition dispenser may include a container with one or more walls  
that are substantially impermeable to ethylene oxide gas during normal ethylene oxide  
sterilization processes. In some embodiments, the container may include flexible walls  
free of metallic foil barrier layers. The containers may also include one or more vents  
10 in addition to one or more openings used to dispense the skin antiseptic composition  
within the container. The dispenser may include an applicator with a hydrophilic foam.
